

National Annual Occupational Safety and Health Awards 2020 Guidelines for Applicants

The National Occupational Safety and Health Awards recognise commitment of workplaces and individuals to good safety and health management. The participating workplaces will be required to answer ten key preliminary questions from a questionnaire, about the safety and health management at the particular workplace.

Only those workplaces that will attain marks above a score determined by the adjudicators will be shortlisted. These workplaces will thereafter be subjected to a physical inspection using a structured checklist that will be used to determine the winners of the award. The winners will be the workplaces or individuals who score the highest marks.
